Clearing the Mind: Conscious & Subconscious

Dr. Rick Moss

Dr. Rick Moss is the amazing developer of Pre-Cognitive Re-Education (Pre-Cog) focusing on the removal of limiting beliefs and retained emotions in the sub-conscious & conscious mind that restrict our life and block the experience of our true Self. With these blocking thoughts and energies gone, our authentic nature and awesome spiritual inheritance is revealed and our reality is transformed. As Rick says: "only subconscious limitations and retained emotions separate us from the Greatness that is our nature and the bliss that is our Home." www.essentialpathways.com

- Dr. Candace Pert, featured in "What the Bleep?" calls Rick "a miraculous healer."
- Louise Hay, author and teacher, says he has "a wonderful gift to offer the world."
